

<p><b>Hardware TOKEN, or key-fob</b></p> 	<p><b>Description:</b> The original authenticator, the SAFEMLS® blue TOKEN, is cost-effective, convenient and easy to use. The slim line device measures about 1" X 2" and easily attaches to a key chain for quick access. Just press the small gray button to obtain a password!</p> <p><b>Is it for you?</b> If you are cost-sensitive, the blue TOKEN is the least expensive option. The letters and numbers on the face are large and easy to read.</p> <p><b>Cost: First TOKEN No Fee for NEFMLS members \$25.00 for Office Administrators/Personal Assistant plus access fee if applicable</b></p>
<p><b>GE Security's DisplayKEY</b></p> 	<p><b>Description:</b> If you carry a DisplayKEY, you can choose to receive your passwords right on your existing DisplayKEY device, consolidating the number of total devices you need. It's simple. You "sync" your key in the cradle, and you'll automatically receive a SAFEMLS update. The next time you scroll through the DisplayKEY menu you will notice a new menu item, "MLS TOKEN." Select this option and the DisplayKEY will show your one-time password.</p> <p><b>Is it for you?</b> If you are a Display Key user, like over 80% of all GE Key holders, and you always have this device with you when you log into the MLS, then you may find this tool to be convenient.</p> <p><b>Cost: \$50.00</b></p>
<p><b>GE Security's eKEY</b></p> 	<p><b>Description:</b> For eKEY users, receive your SAFEMLS password right on your eKEY supported Smartphone or other approved SUPRA device. Once your eKEY has been updated with new software, you will notice a new menu option in the Supra menu, "SAFEMLS". Click the SAFEMLS menu option, and your screen will display your one-time MLS password. Your phone is now an all-in-one PDA, electronic lockbox key, and SAFEMLS TOKEN!</p> <p><b>Is it for you?</b> Most people who use eKEY find that they carry their smart phone or PDA with them almost all the time, which makes this option very convenient. The password display is clear and easy to read.</p> <p><b>Cost: \$50.00</b></p>
<p><b>TEXT-pass®</b></p> 	<p><b>Description:</b> With TEXT-pass, one-time use passwords are delivered to the end-user's mobile phone as a SMS text message. There is no special device, download or software required to use TEXT-pass, making it a true zero-footprint solution. Once a user is enrolled in TEXT-pass, they can send a text message to Clarity Security and within seconds, a single use password will be delivered to them in response. Any cellular phone or Smartphone that supports SMS messaging is TEXT-pass ready!</p> <p><b>Is it for you?</b> If you always carry your cell phone when working and are comfortable with text messaging, this may be a great option for you. It's as easy to use as your cell phone because it <i>is</i> your cell phone! (price does NOT include your provider's text messaging charges:</p> <p><b>Cost: \$75 for 1 year contract/\$135 for 2 year contract</b></p>
